INVALID CHAIR BRINGS WOMAN TO COURTROOM

Mrs. Nettie Davis Seeks Big
Damage Against Railway
Co. for Accident

SMASH WAS YEAR AGO

\$30,000 is Stipulation in the
Action Arising From
Auto Catastrophe.

Thirty thousand dollars is the damage asked by Mrs. Nettie Davis for death of her husband, George W. Davis, who was killed near Oklahoma City more than a year ago by a Frisco freight train, in a suit which opened in the district court here late Thursday against the St. Louis and San Francisco Railway company.

Mrs. Davis, now suffering from paralysis which she alleges resulted from the collision, was brought in to the court room in an invalid's chair and sat silently watching early progress of the hearing. She is seeking damage for her husband's death and for the loss of a touring car which was damaged in the wreck.

Action on the plaintiff's case progressed rapidly when court convened this morning. Testimony from those who were in the car with the Davis family when it was struck by the train early one morning in September, 1920, were introduced as star witnesses for the plaintiff. A man who gave his name as Tiser described the accident minutely.

Davis, who was accompanied by Mrs. Davis and the Tiser family, including Mr. and Mrs. Tiser and a small child, were headed for Oklahoma City from Shawnee in a light model car, Tiser said. When they had reached a point near Oklahoma City where the Shawnee-Oklahoma City road crosses the Frisco right-of-way the car was going about 15 miles an hour, he declared. After looking and listening for the possible approach of a train, he said, they drove up on to the tracks. The car was struck squarely by the freight, its occupants thrown out, and the witness rendered unconscious for several minutes. Others in the car besides Davis and his wife were slightly injured, he asserted.

Weeds Blocked View.
A dense growth of weeds, trees, and cane obstructed their view of the track, Tiser declared, adding that he noticed Davis, who was driving, check his speed and lean forward as in a watchful, listening attitude before they drove up on the right-of-way. Two cars passed them shortly before they reached the tracks, he said.

After the crash, the injured occupants of the automobile were taken to a hospital at Oklahoma City for first aid.

Mrs. Nettie Davis probably will give testimony before her case rests. She is represented in the case by Mahen and Pittman. The railroad company is represented by B. H. Epperson, local attorney, and a staff of corporation lawyers.

Mrs. Davis took the stand in her own case shortly before 2 o'clock this afternoon, after her mother, with whom she has lived since the accident, had told of the plaintiff's physical condition. In a husky voice, she said, from paralysis brought on by her injuries, the frail woman related her version of the tragedy in which her husband lost his life.

She did not know the car was approaching a railroad crossing, she declared, and now remembers nothing of the tragedy. She was not conscious until ten days after the accident and then only in lapses of about half an hour, she asserted. Jurymen leaned forward in their chairs to get broken fragments of the little widow's testimony. Principal injuries were to her back, she said.

NEW CASES ARE FILED
FOR DISTRICT COURT

New cases filed on the civil docket for hearing in the district court are J. H. Royster vs. William Phillips et al., money on promissory note and foreclosure of real estate mortgage; John Lucas vs. James Colton, appeal; O. E. Lancaster and Catherine Brydia vs. Bob Duncan, injunction; S. C. Collins vs. Bettie C. Hobson et al., rescission of contract and deed and recovery of land; S. T. Lunney and H. R. Halbert, co-partners in business at the Oil State Battery company vs. Richard and A. Colbert, money on promissory note.

On the criminal docket of the district court, Dodson Yancy is charged with burglary in the second degree.

JUDGE SAYS KISSING NO CAUSE FOR SUIT

CHICAGO, Nov. 18.—A wife's promiscuous kissing does not indicate a lack of affection for her husband, Judge Joseph B. David declared today after dismissing a \$5,000 alimony suit brought by John L. Walter against Samuel Johnson. Walter divorced his wife after finding her and Johnson in a kissing affair in Mrs. Walter's boudoir. Mrs. Walter since has died.

"It is true they were too friendly," said Judge David, "but you lawyers would not contend that in the romance days of France husbands and wives did not love each other because they had amorous affairs outside the home."

FORMER PONTOTOC MAN TO ASSIST IN PROBE

T. J. Smith, former sheriff of Pontotoc county, but now of Ardmore, has been named by District Judge Tom champion to wait on and assist Judge Elmer E. Fulton of the attorney general's forces in his probe of conditions at Ardmore. Mr. Smith assumed duties yesterday.

Witnesses are being subpoenaed and some little testimony was being taken yesterday by Judge Fulton.

TEAMS CLASH ON MUDDY GRIDIRON FOR BIG BATTLE

Mud Cleats May Anchor
Rival High School Teams
in Classic Today.

COACHES CAREFUL

Dope Balances When Shaw-
nee and Ada Squads Mud
Out On Field Today.

A report from the H. school field this afternoon said Ada and Shawnee had battled to a draw at the end of the first half. Ada excelled on straight football during the opening quarter and the visitors opened a menacing air attack in the second quarter.

In the fourth quarter, Captain Cunningham made two touchdowns for Ada. The final score, Ada 12, Shawnee 0.

Out upon a sloppy field that offered a prospect no more cheering than an invitation to "sink or swim," Ada high school munched this afternoon to engage in her annual football classic with Shawnee.

Throughout the morning and until an early hour this afternoon, coaches of the rival teams, officials who were to call the game, and hopeful sport fans kept scanning the lowering skies with the hope that even at the last minute the steady downpour would cease and a friendly sun would dry up the gridiron.

Coach Arlo "Skivey" Davis, former University of Oklahoma backfield star, arrived in Ada this morning with his Shawnee aggregation. He cast his trained football "weather-eye" over the situation and immediately sent his entire team to local shoe shops in search of long mud cleats that might serve as anchors on a field that inevitably would be murky. Coach C. R. Cox also had his men beseege the cobblers before the game and provided themselves with mud spikes.

The opening whistle blew at 2 o'clock and the two teams, about equally matched and dope breaking even, began the muddy battle. Neither side was up to normal and the crowd was smaller than expected. This game is the homecoming event of the high school squad, three of the men, McCoy, Cunningham and Burk, going in for what probably will be their last fight for the school.

Shawnee has lost two games out of seven this season and Ada has lost two out of nine. The Shawnee record is as follows: Shawnee 13; Holdenville 0; Shawnee 7; Tulsa 0; Shawnee 14; Norman 17; Shawnee 6; Oklahoma City 17; Shawnee 6; McAlester 0; Shawnee 27; El Reno 13. The line-up at the start of today's game was:

THE BARNYARD DELEGATES VOTE FOR TOTAL ELIMINATION OF ARMAMENTS

BRIDGES WILL BE PROPERLY PLACED

Engineers Approved by the
State Department To Be
Employed; No Delay.

That details will be rushed through with the most possible speed and work on the roads begun without any more delays than necessary is the assurance by J. L. Laughlin, chairman of the board of county commissioners, in case the road and bridge bonds carry at the election December 6. No definite promises can be made, they say, as to the exact time work could be expected to start, but it is believed things would move along with no delays.

When asked about the location of bridges, Mr. Laughlin said: "All bridges will be located by an engineer approved by the State Highway department. This will mean that in the future any road may become a state highway and the bridges will be correctly located."

"Some voters have been under the impression that bridges will be built exactly on the section lines. Of course, if the section line is the best crossing, as will be the case in many instances, then the bridge will be built on the section line. This matter, however, will be determined by an engineer who will know his business and shall not have work done and have it to do again in the future."

Mr. Laughlin says so far as he is able to determine the sentiment of the voters is favorable to the bonds and that he expects them to carry with a good majority. In fact, he was convinced of this before the election was called, for the county officers were acting in accordance with what they took to be public demands for a bond issue.

NEGRO WOMEN HELD ON SHOPLIFTING CHARGE

Two negro women were arrested yesterday afternoon by city policemen and placed in the city jail awaiting a hearing on a charge of shoplifting. They were charged with taking a silk dress from the Guest Brothers store Thursday afternoon, but the city police judge said this morning that he had made preparations to turn the women over to the county authorities.

Three negro women entered the Guest Brothers store Thursday afternoon to do some shopping, and while the clerk was taking one of the orders, the other two took the dress, according to Mr. Guest's story to police. On missing the dress, a search warrant was secured and a policeman, accompanied by the clerk, searched the home of the negro woman in dark town. The dress was found hidden in a trunk, police said.

BEER OUTLAWED EXCEPT TO MAN WHO IS INFIRM

WASHINGTON, Nov. 18.—The final legislative step for the outlawing of beer and of wine for other than medicinal purposes was taken today by the senate.

By a vote of 56 to 22, the senate adopted the conference report on the so-called anti-beer bill and the measure now goes to the president, the house having acted some time ago.

Twelve republicans and ten democrats voted against the conference report.

The republicans were Senators Brandegee, Dupont, Edge, Johnson, LaFollette, Lodge, McLean, Penrose, Phelan, Shortridge, Wadsworth and Wheeler. The democrats were Senators Broussard, Gerry, Pomerene, Randall, Shields, Stanley, Underwood, Walsh (Mass.) and Watson (Ga.).

Judge L. C. Andrews, a notice whose death at Pauls Valley late Wednesday was received here today, was a former citizen of Ada and was numbered among pioneers of the county. Funeral services were held at Pauls Valley Thursday.

Mr. Andrews performed singular public services during the great war by taking the lead in Red Cross and Liberty Loan drives. He was 52 years old and had been ill for several months.

M'ADOO DISPOSED TO SCRAP NAVIES

Call Hughes' Plan Good;
Says it Would not End
World's Problems

NEW YORK, Nov. 18.—The complete destruction of all navies, with the exception of small coast-defense forces, was urged yesterday by William G. McAdoo, former Secretary of the treasury and one of the principal figures in the national democratic party.

Mr. McAdoo said the Hughes proposal was "admirable," but that it would hardly accomplish more than the lightening of tax burdens. Advocating a far more comprehensive and radical program of disarmament than that suggested by the Secretary of State, Mr. McAdoo asserted that "bold, drastic and courageous" measures were needed if civilization was "to be snatched from the brink of the fearful chasm on which it now stands."

Other prominent New Yorkers, democratic and republican, gave unbounded approval to the Hughes proposals. Elbert H. Gary predicted that the mere proposal would in itself be sufficient to produce a business awakening. Samuel Untermyer said it was "splendid." George W. Wickersham called it "magnificent." Lindley M. Garrison, former Secretary of War, praises it highly.

Would Abolish All Navies.
The comments on the proposals were as follows:

William G. McAdoo—"Secretary Hughes' proposal to reduce the navies of Great Britain, Japan and the United States, while preserving their relative strength, is admirable and, if adopted, will considerably lighten the existing burdens of oppressive taxation. Every American will hope that at least this much may be achieved by the conference. But it will scarcely do more than lighten the tax burden. It leaves undestroyed the main evil—the menace to the world from continued naval armament."

"The greatest step toward general disarmament and the preservation of peace that could possibly be taken would be the abolition of navies altogether except for such light craft, as may be needed for coast defense purposes. If all navies are destroyed, a colossal load of taxation will be taken from the backs of suffering humanity and all the wasted energies and wealth involved in the maintenance of huge naval establishments will be released for benevolent purposes. There never was a time when the abolition of navies was so nearly within our grasp as now. The German navy has been destroyed. The Russian navy has disappeared. The French and Italian navies are reduced to

COLD WAVE SWEEPS OVER OKLAHOMA AND TEMPERATURE IS LOW

OKLAHOMA CITY, Nov. 18.—A cold wave now moving upon Oklahoma will bring a temperature of between 10 and 24 degrees above zero over the state by morning, the coldest weather of the season, it was announced here this morning by the federal weather bureau.

The cold spell will continue Saturday and Sunday, according to present conditions, weather officials said. The shippers' forecast called for a temperature of 10 to 18 degrees in the north half of the state and between 16 and 22 degrees in the south portion.

A drought of nearly two months duration in Oklahoma City was broken early today when rain amounting to .32 of an inch fell. This will bring only temporary relief, it was said at the weather bureau, and there is no prospect of continued precipitation. The last rainfall here of appreciable amount was on September 24. The present rain has been confined to the east and central portion of the state, according to the weather bureau.

LOYD GEORGE IS BACKED IN PLANS ON IRISH CRISIS

Big Majority of Unionists
Register Confidence in
Government.

ULSTER STANDS FIRM

But North Ireland Agrees
To Talk Informally In
Regard To Issue.

(By the Associated Press)

LONDON, Nov. 18.—The unionist party delegates of the whole country, at Liverpool Thursday, registered a vote even more overwhelming than the recent similar vote in the house of commons, authorizing the government to continue its efforts by conference to negotiate a settlement of the Irish question.

Of 2,000 delegates not more than 100 at most opposed the amendment recording continued confidence in the government.

The effect of the vote is to confirm the mandate given Premier Lloyd George by the house of commons.

Ulster's reply to the prime minister, which was delivered Thursday, is described as uncompromising. In political circles the view taken is that the Sinn Fein negotiations with the government proceeded on the basis that the unity of Ireland was fundamental.

Though Ulster declines even to discuss such a basis in conference with the government, the Ulster representatives have indicated willingness to have that the premier will take advantage of this offer, in order to postpone the crisis further.

Mr. Lloyd George has summoned a meeting of the cabinet committee for 5 o'clock this afternoon but this meeting is said not to be connected with the Irish crisis.

SCRUB DAIRY COWS ARE VALUABLE TO FARMER

(By the Associated Press)

STILLWELL, Nov. 18.—At the suggestion of George Davis, county agent, R. B. Sitton, a farmer living near Bidding Springs Adair county, began milking a small herd of cows which had been left to run the range. They were ordinary "scrub" cows, he said, but the returns were good.

Sitton got enough cream to pay him to market it, and he's been shipping cream ever since. The average of his cream bill from those eight cows, has been \$9 a week. As a result of his success, farmers through the county are taking an interest in the dairy business several are building up extensive dairy farms.

"We've always looked on cows as 'bein' good for nothin' but raisin' calves," Sitton said recently, "but now my cream bill each week is worth as much as a calf's."

WIDOW GIVEN DAMAGE
FOR HUSBAND'S DEATH

A verdict for the plaintiff, Mrs. Lula Hulsey, against the Missouri, Kansas & Texas railroad, was returned late Thursday by a jury in the district court here, allowing the widow her claims of \$3,000 for the death of her husband, Ben Hulsey, here last November.

Hulsey was run down by his own team which, the plaintiff charged, was frightened by a Katy train.

JAPAN PREPARES VIEW ON CHINA'S FAR EAST IDEAS

Disarmament Committees
Not Meeting as Exchange
Of Opinions Nears.

U. S. PLAN IS PROBED

British Will Advance Their
Estimation of U. S. Move
Within Short Time.

WASHINGTON, Nov. 18.—Committee sessions of the conference delegates stood adjourned today to give opportunity for preparation by Japan of a general presentation of that country's views of China's proposal of principle for settlement of the far eastern question at a committee meeting of all the delegations tomorrow, following decision of all the delegation heads, meeting as a committee on procedure yesterday, that a general exchange of views of China's program should be taken before proceeding to the consideration of specific points as they fall under the division of the original agenda.

The Japanese delegation asked for the lapse of a day before holding a meeting of the delegates for that purpose. Baron Kato has announced Japan's acceptance of China's proposal "as the basis of discussion towards settlement" and he had no objection to the acceptance in principle for that purpose.

Meanwhile, committees of the British delegation pushed their work today for formulating in detail their position on both the American proposals and the Chinese far eastern proposition. Although presentation of Great Britain's viewpoint of the American question, it is stated, will require two or three days yet for completion, the committee of naval officers of the five powers is carrying forward its consideration of the American proposal and is reported already to have made some progress.

Cash on Submarines.

It is regarded as certain, however, that no early report from this body can be looked for in view of the task it faces in accommodating the British desire for a cut in the maximum submarine tonnage proposed and the equally firm American view that this maximum should be retained. While this at present is the outstanding point of disagreement on the armament question, the committee also must take up the modification to be produced by Japan permitting her to maintain a "general tonnage slightly greater" than the proposed 60 percent ratio. Announcement that Japan would ask this was made by Baron Kato late yesterday in a statement in which he said his country also would seek the right to maintain any type of vessel of "strictly defensive" character and tonnage approximately that of any other two powers.

To Boost China.

WASHINGTON, Nov. 18.—Great Britain has come to the arms conference, British authorities emphasized today, for the purpose of doing everything possible to enable China to assume her proper place in the commercial world. With this aim in view, Great Britain is satisfied that this may be obtained through the open door and leaving China free to carry out her own destiny.

Favors Open Door.

With the arms conference adjourned, the various national groups further developed in consultation among themselves today the policies they will follow with respect to the far eastern and limitation of national armaments questions.

The British, following the lead of the French, let it be known as a principle of their attitude towards the far eastern situation that they stood in favor of the "open door" policy in China, giving up extra territorial rights there as soon as China develops enough to warrant it and, in general, to aid the Chinese people to assume a place of prominence influence in the world. It was finally expected that Italy, while her interests are more remote, would take much the same position.

The Japanese have already shown their willingness to accept the Chinese declaration of principle, "as a basis of discussion." They are at work framing a more determined statement of their position after communicating with Tokyo.

There were indications that the extra territory phrase of the situation would occupy a paramount place until the Chinese court system has been substantially expanded and reconstructed.

No Official U. S. Stand.

For the United States no one will speak authoritatively, officials only referring inquiries to the record of this government's past attitude towards China. The particular way in which the general principles are to be applied to the present situation probably will remain unrevealed until the negotiations have gone much further, although (Continued on page 8.)

ARMS LIMITATION
WILL NOT REDUCE
OUTPUT OF STEEL

(By the Associated Press)
NEW YORK, Nov. 18.—Negotiations of a treaty which would prevent future wars was urged, in conjunction with an agreement to the limitation of armaments, by H. Gary, chairman of the board of the United States Steel corporation in an address today before the American Iron and Steel Institute, of which he is president. He also belittled the suggestion that armament limitation would reduce the manufacturer of steel, saying that the thought was unworthy of even a passing notice.

Business was improving, he said, but there must be further adjustments.

EIGHT KILLED IN ONE
HOUSE WHEN IT FALLS

MENA, Ark., Nov. 18.—Eight members of the family of R. E. Weems at Wickes, Ark., 25 miles south of here, were killed last night when the home collapsed during a violent storm, according to reports received here. News of the deaths reached Mena this morning when a call for eight coffins was received. Details are lacking, as are names of the dead members of the family, due to the fact that all wires are down, but it is understood little damage was done except to the Weems place.

FAMOUS NEW DISCOVERY
TAKES COUNTRY BY STORM

Fame of Pomeroy's Great Triumph Sweeps Southland
As Person After Person Is Restored to Health and Happiness—Many Cases Were Considered Hopeless.

Pomeroy's Local Representative Says Hundreds Right Here in Ada Will Be Helped, and That Startling Testimony of Local People Will Soon Appear in the Evening News. Puratone to be Sold Here by Gwin & Mays Drug Store.

Newspaper clipping displayed in Ada yesterday indicate that Pomeroy's Puratone is, indeed, the most extraordinary medicine of its kind ever before offered the American public.

These newspaper articles contain the statements of men and women in various cities, who tell in plain words of the amazing results that have been obtained through the use of this.

The local representative of Mr. Pomeroy, when seen yesterday, made the following comments on the matter: "Remarkable statements to be sure, but nothing at all unusual. Within a very short time hundreds of the very best people of Ada will say the same thing—that Puratone restored them to perfect health and happiness. It's the same old story everywhere Puratone is introduced. There isn't a building in this city big enough to hold the people right here in this section who are going to be helped by this medicine. And within two weeks time the local newspapers will contain strong endorsements for Mr. Pomeroy and his Puratone, given by Ada people."

The following brief extracts are taken from signed statements of well known people who have been helped by this preparation:

Miss L. L. James, 744 Third Ave., Columbus, Ga., says: "My friends declare I don't look like the same girl since taking Puratone. I have gained weight, my face has filled out and my color is much better. I had been in a rundown condition for a year. I had no appetite and the

little I ate disagreed with me. I had dreadful headaches, and dizzy spells and sometimes when I stopped over I would almost turn blind. All my troubles have been ended by Puratone. I feel simply fine."

T. W. Reynolds, 4 North Broad St., Atlanta says: "I had been going down hill fifteen years, suffering with stomach trouble and rheumatism. Puratone overcame every one of my troubles and I am like a brand new man. I have gained nine pounds. This medicine has been worth more than gold to me."

Mrs. Lucy Ragansburg, 5th Ave. and 31st St., Columbus, Ga., says: "I would not take one thousand dollars for the good Puratone did me. I suffered twenty years with indigestion and stomach trouble. I became so weak I could hardly walk across the room. Was treated by doctors and took all kinds of medicines without results. Puratone made me like a different woman. I am now able to do my own housework. My recovery has amazed my friends. I'll praise this medicine as long as I live."

W. A. Copeland, R. F. D. 1, Girard, Ala., says: "When a medicine actually makes a man gain thirteen pounds in a few weeks time and overcome troubles that have been pulling him down for years he certainly ought to let the people know about it. That's exactly what Puratone did for me. I suffered dreadfully with rheumatism and stomach trouble, but thanks to Puratone I am now a well man."

Puratone is sold in Ada by Gwin & Mays Drug Co. (adv)

DAIRY

LEGUMINOUS HAYS FOR COWS

Corn Silage Is Excellent Feed, but Not a Balanced One—Legumes Furnish Protein.

(Prepared by the United States Department of Agriculture.)

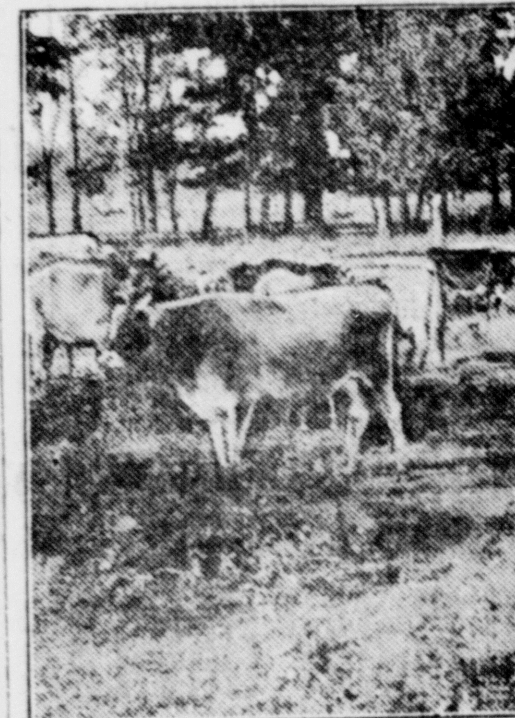

The best kinds of dry roughage for feeding dairy cows in connection with corn silage or roots are leguminous hays, such as alfalfa, red, crimson, or alsike clover, and soy bean or cowpea hay. In the opinion of experts of the United States Department of Agriculture, while corn silage is an excellent feed, it is not a balanced one, as it does not contain sufficient protein and mineral matter to meet fully the requirements of the cow. The leguminous hays, in addition to being very palatable, tend to correct this deficiency. They are also among the best and cheapest sources of protein.

One or more of these hays can be grown on practically any farm. In addition to their value for feeding purposes, they improve the soil in which they grow. Hay from Canada field peas, sown with oats to prevent the peas from lodging, also makes an excellent roughage.

Corn stover, sorghum, etc., also find a good market through the dairy cow. This class of roughage is low in protein, however, and when it is used the grain ration must be richer in this element.

No positive rule can be laid down as to the quantity of dry roughage that should be fed, but from 6 to 12 pounds a day for each cow, in addition to silage, will be found satisfactory in most cases.

When the dry roughage is of poor quality, such as coarse, woody hay or a poor grade of cornstalks, a large portion can often be given to advantage, allowing the cow to pick out the best and using the rejected part for bedding. With this quantity of dry roughage the cow will take, according to

One of Most Economical Feeds for Dairy Cows Is Pasture.

her size, from 25 to 50 pounds of silage. This may be considered as a guide for feeding, to apply when the roughage is grown on the farm. When everything has to be purchased, it is often more economical to limit the quantity of roughage fed and increase the grain ration.

RUNTY ANIMAL UNPROFITABLE

Undersized and Undeveloped Animals Usually Caused by Improper Care and Poor Feed.

Niggardly methods of feeding and caring for farm live stock are unprofitable. This is one conclusion resulting from an inquiry conducted by the United States Department of Agriculture into the causes and prevention of runtness among farm animals. Seventy-five per cent of undersized and undeveloped animals, according to a summary of more than 700 opinions advanced by live-stock owners, are due to inferior breeding, inadequate or unsuitable feed, and pests, such as parasites and insects.

The remedy is the better care of better stock, and the cost of this remedy, in the opinion of practical farmers, is much cheaper than the expense of continuing to raise undersized and slow-maturing domestic animals. "Better raise one good cow than two poor ones—a runt is nothing but expense all its life." This opinion, which is typical of many others, is from a Michigan dairyman. A thrifty New Englander sums up sentiment on this topic with the remark, "I find I cannot cheat the animal without cheating myself."

HIGH-PRODUCING DAIRY COWS

To Increase Productiveness of Herd It Is Necessary to Begin With Individuals.

Increasing the productiveness of a dairy herd through selection must begin with the individual as a unit. Cows with the best performance records are mated to a bull backed by a line of high-producing ancestors. Even this will not guarantee offspring equal to their parents in productiveness, since the law of chance operates to make results uncertain. However, the average will be as good as their parents' and some will exceed their dam's record. The best producers are further bred for further improvement.

The new resident in Brooklyn is promptly canvassed by florists who wish to sell him a rubber plant—on the plea that no Brooklyn home is complete without one.

LIQUOR LAW FOES
HINDER DRY WORK

Talk That Prohibition Can't Be Enforced Comes from Propaganda.

(By the Associated Press)

DETROIT, Mich., Nov. 18.—Much of the talk that the prohibition law cannot be enforced is the result of propaganda seeking to break it down. Roy A. Haynes, federal prohibition commissioner, told the national conference of the Methodist Episcopal church here today.

"The first militant force against the enforcement of the 18th amendment," Commissioner Haynes said, "is a highly developed and persistent propaganda which seems to be organized in certain quarters. It has as its purpose the impression upon the public mind that prohibition is not enforced—and this because of the unpopularity of the dry law among the masses of the people."

"There is no law against any effort to amend our constitution, but we should bear in mind that organization seeking to repeal the 18th amendment must keep to their task and not attempt to nullify this law or prevent its operation while it remains a part of our constitution."

"Perverted Our Honor." Taking up the remark that the prohibition law is a joke, Mr. Haynes observed that "we have allowed the lawless and discontented to pervert our sense of honor."

"The law will cease to be a joke," he declared, "when the law reaches the men who today treat it as a joke, and who bring the law into disrepute by their attitude and their actions toward it. The law will be taken seriously when it is seen that there are none above the law."

Judges expressing "disdain" of the act from the bench were told by the prohibition commissioner that "it is time that such judges took the matter of prohibition more seriously."

"In my judgment," he said, "light fines and long delays in bringing cases to trial have contributed in no small way to the spirit of defiance in which the bootlegger holds the law."

Besides apathy of public officials in enforcement, Mr. Haynes named the apathy of "cultured and Christian" due in good part, he said, to belief that the fight is over, as another foe of the 18th amendment. "The fact remains," he declared, "that the very best part of the fight is just beginning."

Should Commend Officers. He advised friends of prohibition in the cities to write personal letters or to publicly commend "public officials who are making honest effort to do their duty and enforce the law."

The bootlegging problem is serious, the federal commissioner added, because of an alliance between an apparently respectable class and most vicious and criminal class, drawn together by the high rewards of the traffic.

"This combination is a most formidable one," he said. "It resorts to every kind of political intrigue or social approach to break down the moral stamina of the men whose sworn duty is to make the law effective. This profiteering criminality is a national menace on the part of all good citizens."

The struggle over the Volstead act was characterized in general by Commissioner Haynes as "an inevitable conflict, the class between old world customs and the spirit of American institutions."

For a small amount you can advertise your stuff in the Ada Evening News and sell direct to the consumer. Why not get the middle man's profit?

Doctor Warned Him Against Taking Quinine; Said It Would Cause Permanent Deafness

New Braunfels, Texas, Nov. 1, 1905.—Dr. J. C. Mendenhall, Evansville, Ind. Dear Sir: "For nearly seven months I had a peculiar trouble in my right ear which caused deafness. I consulted a specialist and he pronounced it to be a formation of lime in some tube or blood vessel which prevented sufficient circulation and very little or nothing could be done for it. He also warned me not to take quinine as it would make a bad matter worse. Believing that my trouble was of malarial origin I began to take Mendenhall's Chill Fever Tonic as you recommended it to be taken where quinine was contra-indicated. To my delight I improved from the start and at this writing 28 days after am entirely rid of my trouble. I took in all six bottles and will take it awhile every seventh day to prevent a return." Very truly yours, J. Gleeske, Editor New Braunfels, Weekly.

Thousands of men and women become sickly, run-down, and old before their time.

Ironized Yeast is performing what seems like actual miracles everywhere. In many cases it brings a noticeable improvement in two or three days. Enjoy the clear skin, sparkling eyes, rugged strength and health of youth! Get Ironized Yeast today! Sold at all druggists in patented anti-tape packages. Each contains 10 days' treatment and costs only a dollar—(just 10c. a day), or no more per dose than ordinary yeast. Special directions for children in each package. Made by the Ironized Yeast Company, Atlanta, Ga. (Adv.)

Both Are Necessary for Best Results—Thousands Now Take Ironized Yeast in Convenient Tablet Form.

Run-down, weak and thin people, who were eating yeast for health, have found that yeast brings far better and quicker results when it is taken with iron.

Through this splendid combination of tones, now embodied in Ironized Yeast, folks who for years suffered with loss of strength, nervousness, anaemia, thinness and other "run-down" conditions, are regaining glorious health and strength almost as if by magic.

This is because Ironized Yeast supplies run-down bodies with just the elements they need—vitamines and iron. These two substances have been found absolutely essential to good health. Yet the modern diet, in many cases, is almost entirely lacking in them. No wonder so many

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says the open saloon has disappeared for good and all and many of our best people favor the return of beer and light wines now that the bar has been removed.

SAYS RED PEPPER
HEAT STOPS PAIN
IN FEW MINUTES

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package. (n)

How To Get Relief From Rheumatism

Scientists Agree That the Cause Is Due to Waste Products In the Blood.

The blood is the means by which all tissues, muscles, ligaments and flesh of the body are directly or indirectly nourished. It is also thru the blood stream that worn-out tissues and waste products are cast out of the system.

When waste products accumulate, they are a menace to life. They cause a lowered vitality, many skin disorders and rheumatism. Genuine relief from the agonies of rheumatism can be had only by correcting the basic trouble—waste products.

Thousands and thousands of men and women during the past 50 years have cleared their blood of waste products with S. S. S. It is the ideal remedy for rheumatism, because it removes the poisonous waste matter which is causing the trouble. There are no bad after effects and the result is wonderful. Begin taking S. S. S. today and write for 56 page illustrated booklet, "Facts About the Blood"—free.

Personal medical advice, without charge, may also be had by sending a complete description of your case. Address Chief Medical Director, Swift Specific Co., 732 S. S. S. Laboratory, Atlanta, Ga. All good drug stores sell S. S. S.

Bulky Evidence Put Forth in Court for Damages on Railroad

(Special)—A dozen huge railroad ties and supports were dragged into Judge J. I. Phelps' district court room Thursday as evidence in the suit of Mrs. Rosa Lee Skelton for \$50,000 damages from the Rock Island railroad.

The wife is attempting to prove that the Rock Island track near Little Rock, Ark., was so faulty as to throw the engine manned by her husband, Erven Skelton, against a watering tank. Skelton was killed.

Attorneys Roy Ford, Tulsa, and A. H. Meyer, this city, are responsible for the unusual feat of transporting part of a railroad track hundreds of miles and into a court room.

Arguments in the case were to begin in the afternoon.

The ties offered as evidence were blackened and worm eaten. The jury was allowed to examine each one.

WESTERN ROADS' TRAFFIC LOWER

Reaction from Strike Threat Cuts Business of Transportation

(By the Associated Press)
CHICAGO, Nov. 18.—Traffic over western railroads has slumped materially as a result of the reaction from the stimulus given the movement of freight on account of the prospective strike late in October. Loadings of practically all commodities are materially less than those of October and also as compared with last year. The Burlington, which was handling around 650 cars of grain per day in October, is now down to around 160 cars. On the Rock Island coal loadings are off 1,500 cars so far this month.

The decrease, however, is expected to be only temporary, as much grain will come forward later in the month. There is no certainty, however, that the decreased freights on grain and grain products from Western and mountain Pacific territory will go into effect on Nov. 20, as is generally expected. The Board of Trade transportation department issued a statement recently to the effect that it might not, but the carriers expect that it will.

Railroads continue to buy equipment, which is a bright spot in general business conditions, with the Burlington, Atchafalpa & St. Paul contracts already let and others to follow shortly. There is more or less uneasiness created by the prospects of the railroads asking a 10 per cent cut in wages, which would in all probability bring renewed strike talk.

People in a position to know are very confident that the proposed consolidation of the Haskell & Barker and Pullman Companies will occur in the near future. There are several small differences to be ironed out yet, but they will be settled shortly, and Haskell & Barker are expected to be taken over at the basis of around \$70 to \$75 share.

Iron and steel business is better, with local plants operating at around 50 per cent capacity. Coal business is only fair. Retail business is only fair. Retail business in seasonal goods has been stimulated by colder weather, but the wholesale trade has declined slightly, although it is still in excess of last year and continues in satisfactory volume. Leading jobbers report collections as satisfactory.

While there has been some improvement in the general world situation, especially in foreign finances, there was little in the wheat market news the past week to justify an advance of 10 1/4 and 11 1/4 cents from the recent low. The up-

turn in American markets has been firmer than in Canada, with the result that cash wheat in that country has gone to a somewhat lower basis as compared with No. 1 Hard Winter.

The bulk of the "distressed" domestic grain at the Atlantic seaboard has been taken care of, but there is still some that can be obtained at the gulf at relatively low figures.

Sentiment, however, is more bullish than for some time, and more attention is now being given to statistics, although many traders are not inclined to follow bulges with buying orders until such time as the visible supply of domestic grain starts to decrease rapidly or there is a material change in the milling demand.

The purchases of yellow No. 2 hard winter at Chicago by Buffalo mills last week is taken as indicating that they are unable to secure the regular hard for mixing purposes, and more business is looked for, as weather conditions are regarded as having bleacher much grain and put it into the yellow hard class, that, from a milling standpoint, is just as desirable as the regular hard.

OIL OPERATIONS IN STATE SHOW GROWTH

(By the Associated Press)
OKLAHOMA CITY, Nov. 15.—Producing operations in the oil industry have nearly doubled in Oklahoma since 1914, according to reports to the state labor commissioner, Claude E. Connally, by a majority of the oil industrial concerns of the state, and made public by him here today.

In 1920 and 21 producing operations were carried on in 75 fields of the state, including 30 counties while in 1914 producing operations were carried on in 45 districts and 15 counties.

Pipe line operations have increased since 1920 the reports show as well as activities of refineries and gasoline plants. Pipe line operations were carried on in eight counties in 1914, and ten in 1920, while in 1921, eleven counties boasted pipe lines. Eleven counties saw activities of refineries and gasoline plants in 1914 eighteen in 1920 and nineteen in 1921.

A direct comparison was shown by the labor commissioner in compiling data from reports of the various concerns between 1914, 1920 and 1921. In producing operations the office employees in 1914 numbered 192, in 1920 numbered 1,578, and in 1921 totaled 1,578. The field employees for these operations in 1914 numbered 3,625, in 1919 had increased to 600 percent more, or 19,902 and in 1921 dropped back to 12,822. The totals were 3,831 in 1914, 21,850 in 1920 and 4,400 in 1921.

In pipe line industries office employees totaled only 160 in 1914, raised to 455 in 1920 and gained one in 1921. There were 634 field and plant employees in 1914, were 4,374 in 1920 and 3,038 in 1921. Totals here were 794 in 1914, 3,829 in 1920 and 3,494 in 1921.

There were 42 office employees of refineries and gasoline extraction plants reporting to the state labor department in 1914, 1,028 in 1920 and 902 in 1921. Plant employees numbered 151 in 1914, totaled 5,664 in 1920 and 4,197 in 1921. A total of 193 persons were employed in 1914, 6,692 in 1920 and 5,099 in 1921. The grand total of employees for all classes is 4,818 in 1914, 33,371 in 1920 and 22,992 in 1921.

MANY PLEAD GUILTY TO FORMING TRUSTS

NEW YORK, Nov. 18.—Thirty-three individual and twenty-five corporations, members of the marble industry employers association, today pleaded guilty to violation of the Donnelly anti-trust law.

Supreme Court Justice John F. McAvoy announced that on November 2 she would sentence the defendants whose operations were revealed by the Lockwood committee of the builders trust last year.

Early Bandit Days in Oklahoma Recalled As Men Start Digging For Long Buried Treasure Store

(By the Associated Press)

FREDERICK, Nov. 18.—Bandit days in Oklahoma, when Mother Earth was the First National Bank in Indian and cowboy land, were recalled by Frederick citizens recently when two men appeared on the farm of the Rev. Edwin Brown stating that they had come to dig for money they had buried there a quarter of a century ago.

Secretive and resenting questioning, the men dug with a borrowed spade, according to the Rev. Mr. Brown, and left before dawn. They came the next night, additional witnesses corroborating the pastor's story, and Deputy Sheriff Walter Phillips was called.

One of the men admitted to him that he had been a participant in the battle of William's Lake, twenty-five years ago, and that he had come back to look for \$5,000 he had buried when he thought it possible that he would be captured. The men were allowed to proceed, and after considerable digging said they could not find what they searched for and departed.

Tillman Battle Reviewed

The story of the Tillman county battle in 1896, however, was revived and now is going the rounds of the veterans of Indian and Bandit wars in the early 80's. A score of years before Oklahoma became one of the stars in the flag of the Union.

"Ed" Beckman is said to have started the trouble when he was arrested in connection with death of a man at Horse Creek, Okla. Horse Creek was then also a stream west of Frederick. He was released after a preliminary examination, but was rearrested when a wire was received from a negro on the once historic Wagoner ranch—then comprising several counties in south-west Oklahoma, stating if he was held, she would supply evidence for conviction.

He was tried and acquitted, but stories of a shooting at Seymour,

Tex., where Beckman had been a sheriff, traveled northward and he sought shelter at Altus, near his wife. She was insulted by a store proprietor there, according to the story, and Beckman, in company with Hill Loftis, a cowboy, "Red Buck", a strip character, and "The Kid", whose real name was not known, destroyed "Highower's General Store", beating senseless the proprietor, who was alleged to have been responsible for the insults.

"Old Nels," a farmer near Headrick, was found dead the next morning, his body perforated with bullets, and a posse was organized and followed Beckman and the remainder of his associates. At Rondo, Greer county, and Electra, Tex., the "gang's" trail was picked up and as several persons had been killed at each place, the posse grew.

Capture Dugout.
At William's lake, on the Wagoner ranch, the pursued took possession of a dugout occupied by Jed Terrance, a ranch employee. Jed rushed from the scene and meeting the officers about three miles out, told them the location of their quarry, and continued out of range and out of the story.

The officers of the posse, themselves intending to spend the night at the dugout, surrounded the place, and the battle began. Beckman came out into the open, shooting the horses of several of the posse from under them before he fell dead, his body riddled with shots. "Red Buck" was shot several times, but the bandits were not dislodged from their dugout, and the officers fell back on their two remaining horses.

While they were marching for more ammunition and more horses, the alleged outlaws retreated.

Loftis, the only one ever captured, was tried on a murder charge and acquitted. "The Kid" was heard from once in Waco, Tex., where the story has it, he said, "Give me a cigarette," just before a posse hanged him for robbery.

To Mr. Dennis' statement, while the losses amount to less than one and one-half per cent of such deposits. He describes the adverse conditions as being local and isolated and do not apply to the state as a whole.

FINANCE IS KEYNOTE IN BAPTIST MEETING

(By the Associated Press)
OKLAHOMA CITY, Nov. 18.—Finance was to be the keynote of discussion at the Baptist's general convention here today. A decision was expected on the question of whether or not the five year expansion program of the church shall be carried through Oklahoma Baptists would contribute approximately \$1,000,000 a year to the campaign it was said.

M'ADOO DISPOSED TO SCRAP NAVIES

(Continued from Page 1)

skeleton proportions, and Great Britain, Japan and the United States have only to agree to get rid of their navies as they forced Germany to do and the rest of the world will follow.

"If We Can Limit, We Can Abolish"
"If we can limit navies by international agreement, we can abolish them in like manner."

"If all nations are without navies, all will be secure from attack by water and the seas will become, as God intended them to be, the great highways of peaceful intercourse between the people of the earth. With the abolition of navies, land warfare will be restricted. Navies spread the contagion of war by their disregard of neutral rights. But for the aggressions of the German Navy upon American life and property upon the high seas, the United States would not have been drawn into the world war. It was Germany's flagrant violation of these rights that forced us to unsheathe the sword."

"Bold, drastic and courageous measures are required, if civilization is to be snatched from the brink of the fearful chasm upon which it now stands. Destruction of naval armaments will make general disarmament more certain and promote that international co-operation upon which the peace and welfare of the world depend."

BLANTON HURLS CHALLENGE FOR DEBATE ON ROW

WASHINGTON, Nov. 18.—Representative Blanton, democrat of Texas, who was recently censured by the house for inserting objectionable language in the congressional record, today challenged the 17 other members of the Texas congressional delegation "singly and collectively" to a debate in nine Texas cities after adjournment of the present session.

Mr. Blanton, in his formal challenge, charged that his colleagues, abetted "the instructing and passing of a resolution of censure," causing him to be "publicly insulted on the floor—a punishment worse than expulsion." He added: "This was an infamous outrage," which he did not merit and charged that after a resolution to expel him had failed, he was not afforded an opportunity to be heard in his own defense.

Martial Law in Mine Strike Area Will Be Contested in Courts

(By the Associated Press)

WALSLEBURG, Colo., Nov. 18.—Charges were made by John P. McLennan, president of district 15, United Mine Workers of America, that the proclamation of martial law in Huerfano county was unwarranted and would be contested in the courts. A mass meeting at which the miners were cautioned against disorder marked the opening of the miners' strike against a wage cut in 13 mines of the Colorado Fuel & Iron company in Los Animas and Huerfano county coal fields.

The day passed without any disorder.

Why not rent that extra bedroom and have a steady income? Let the News want ads get a roomer.

TOMPKINS WORKING FROM 6 A.M. TO 10 P.M.

EX-Sheriff of Harris County, Tex., Declares His Ability Has Been Doubled.

There are few men in Southern Texas who are better known than Thomas W. Tompkins, Lynchburg, Texas, for many years justice of the peace and deputy sheriff of Harris county and who is now engaged in the mercantile business. In relating his interesting experience with Tanlac Mr. Tompkins said:

"Tanlac has not only relieved me of all my troubles but has doubled my working capacity. I can go to my store now at 6 o'clock in the morning, work all day until 10 o'clock at night and feel fine all the time. About a year ago my health began to fail on account of stomach trouble and I finally got to the place where nothing I ate agreed with me."

"Tanlac has just about made me over into a new man and there is nothing too good I can say for it. My advice to people with stomach trouble is to take Tanlac."

Tanlac is sold in Ada by M. A. Waits and all leading druggists. (a)

BIBLE THOUGHT FOR TODAY

THE SUPREME RULER:—Exalt ye the Lord our God, and worship at his footstool; for he is holy.—Psa. 99.

A GOOD INVESTMENT.

The report in the Evening News Thursday from Mrs. Mabel Browall, secretary of the city school board, showing that \$1,457.56 has been received and paid out for various high school activities contains slightly larger figures than many citizens supposed. They intimate that the high school has been spending more money than is necessary and that the citizens are called upon to donate more money than they ought to donate. These intimations, though they are given in all honesty, are, as the News sees it, uncalled for and unfair to the high school authorities.

The Ada institution is one of the best high schools in the state. This statement, we believe, will not be denied by any one. But in addition to doing the regular school work, the local institution is a part of the city and renders services in many ways for which we do not pay.

The high school band, for instance, is a city band instead of a strictly high school band. It appears at public functions and performs services in a high class manner. Were Ada to bring in a band and pay the expenses, not to say anything of the salaries of the members, it would cost us several times as much in a year as we have donated to the high school in the several years just past. Of course, the citizens donated money last summer to keep Mr. Hill as an instructor, but this was apart from the high school work.

The money which has been donated in various ways covers an expense running over several years. Many of the expenses which this money has gone to take care of are paid in other towns by the school boards from public funds. The local board is right in not paying many of these, but at the same time the city gets the benefits of these functions and should not object to paying the expense.

Another thing we do not often take into consideration is the failure of the public to support some of the activities of the school here as they are supported in other places. As an example, Okmulgee had a crowd estimated at 2,000 at the game between Ada and Okmulgee last week. We believe we are safe in saying that the local institution has not had over three or four hundred at any game this season. Of course, all activities which cost a little money could be discontinued, but educators say they are essential and we believe the Ada people want all essentials.

UNFULFILLED PROMISES.

In the presidential and congressional campaigns of last year the Republicans promised everything. Their party was a full partner with Prosperity and if the G. O. P. were only given a chance the second member of the firm would be placed on the job at once. Factories would reopen, capital would flow in abundance, every man would have a job, taxes and the cost of living would be reduced, cotton would rise in price as would everything else the farmer raised.

It was some picture they painted and the voters took it all in. The recent election, however, proved that the voters are now waking up to the fact that they were chasing a rainbow. Republican leaders now realize that the people expected them to make good their promises and will hold them to their promises, made for campaign purposes only. This is something new in politics and the party has a big job on its hands if it saves its skin at the congressional elections next year. The change people expected has been a change for the worse. There are certain economic laws beyond the reach of legislation and it is a dangerous thing for any party to claim to have magic powers in dealing with such matters.

The Ardmore law carries a page ad over the Ku Klux Klan signature warning law breakers of every description to make themselves scarce in Carter county. Carter county citizens have been much aroused lately by a wave of lawlessness. This affords the Ku Klux Klan a fine opportunity to clean up the county and the result of their ad will be watched with interest. If the order makes good in this case it will go a long way towards silencing its critics. Whether tar and feathers are applied or evidence furnished the authorities upon which the toughs can be put behind the bars, results are what the public want to see.

Payment of the debts incurred by the various belligerents in the great war will require a century or two at the very least calculation. Perhaps by the time the debts are paid civilization will have advanced so far that the tax payers of that day will declare with profane emphasis that their forefathers were a lot of chumps and sapheads not to know how to settle their differences according to the rules of reason. If the disarmament conference succeeds in its undertaking and the danger of future wars minimized we may hope to see that very condition prevail some day, or rather hope that the next two generations may.

The Evening News

The Straight Road to Peace.

(New York Times)

"The way to resume is to resume"—that was the sound money war cry in 1878 when the resumption of specie payments was the overshadowing topic of the day. The way to disarm is to disarm, said Mr. Hughes to the astonished conference, and the whole world rejoices and applauds.

Since cave men began to make war clubs and fashion stone hatchets there has been nothing like this in all history, save only the Rush-Bagot "arrangement" in 1817, when we agreed with Great Britain that on Champlain and the Great Lakes there should be "on each side," only four vessels not exceeding 100 tons each and carrying one 18-pound gun. That "arrangement" was voluntary, like the program Mr. Hughes now submits to the conference; other ordinances of disarmament have been imposed by victors in war.

This is a culmination of plans of peace long urged and cherished. It is of intense interest, momentous. The hitherto unchanging policy of always bigger ships and heavier guns, of uncounted millions to provide unmatchable navies, is to be suddenly reversed by the three chief Powers of the sea; building is to cease and splendid warships are to be destroyed. A ten-year breathing spell of Vulcan will leave him little disposed to resume the beating out of armor-plates. If the conference accepts this plan, if the nations agree upon it, even with modifications, a great stride will have been taken toward assured peace.

It is a good augury that the conference welcomed Mr. Hughes' naval holiday program, that government chiefs and leaders of opinion the world over receive it with favor. It should have universal support and advocacy. Friends of the League of Nations cannot fail to applaud and help on this happy continuation of the work nobly begun in the Covenant. What boots it who speeds on with the torch when once it is lighted? Men pass, means serve and are discarded; it is the end, the achievement, that endures.

"Some Man"

(Pauls Valley Democrat)

Would you like to have your boy turn out to be a real 100 percent man physically as well as mentally?

Then don't shut him up in a house of roses and keep him there until he breaks away of his own accord.

Roses are a delight to the eye and the sense of smell but they do not develop the muscle or add to the breadth of mind.

Get him a ball and a bat and a pair of boxing gloves and add a punching bag.

Give him a couple of Indian clubs and teach him how to swing them. Encourage him to run and jump and wrestle and leap fences.

Let his hours of recreation be healthful and vigorous, and not of the pink tea variety.

Teach him to fear God, to be loving, respectful and obedient to his parents and mindful of the rights of other people and you will develop an adult who will be "some man."

WOMAN'S FAITH HELPS HUSBAND

"I owe my good health to my wife who had faith in a newspaper ad she saw of May's Wonderful Remedy. I was down so badly with stomach and liver trouble after 15 years of suffering and trying every known remedy that I had no faith in anything. This medicine has certainly been a 'God-send' to me." I is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. (adv)

BELT FOR COTTON SEED IS LIMITED

Rigid Quarantine May Keep Down Spread of the Pink Boll Worm.

(By the Associated Press)

OKLAHOMA CITY, Nov. 18.—Announcement here this week of a state policy of restriction of certain areas of Texas and Louisiana and all of New Mexico, from shipping cotton seed into Oklahoma, followed close on the heels of the announcement of a second trip of investigation into Old Mexico by H. H. Shutz, of the federal department to compile data on pink-bollworm infestation.

It was believed at the state department that the state proclamation was a forerunner of a national policy of exclusion of seed from these districts, in line with recommendations of Mr. Shutz, after his first trip into the cotton-seed districts of these states and Old Mexico, which he made as the personal representative of the Secretary of Agriculture.

The second trip also is made as Secretary Wallace's personal representative, concerning the advent of the pink bollworm into the United States cotton districts. Complete provisions of the de-

partmental quarantine were given by President Whitehurst, of the state board of agriculture, in a signed proclamation.

Quarantine is Fixed.

"For the purpose of preventing the introduction of the pink bollworm into the state of Oklahoma from quarantined areas of Texas, Louisiana and New Mexico, a rigid quarantine" hereby is declared against all of New Mexico and those portions of Texas and Louisiana covered by federal quarantines," he said.

"Cotton products of any kind may be shipped from these states, for commercial purposes only, provided that the seed was not grown inside the infested areas on which restrictions are now set, or are in the future set, but the federal department of agriculture.

"Cotton seed may be shipped also in this manner, but not for planting purposes. Cotton seed for planting purposes shipped from either Texas or Louisiana, must be accompanied by a signed statement, attached to the bill of lading, that the cotton seed did not originate in any federal restricted area, nor in any area infested or in immediate vicinity of an area infested by the boll weevil or the pink bollworm. The statement must be sworn to."

When the kidneys are ailing, use Prickly Ash Bitters. It is a fine kidney tonic. Relieves backache, bladder troubles, indigestion and constipation. Men of advanced years get great relief from its use. Price \$1.25 per bottle. Sold by Gwin & Mays. (adv)

Why not sell those extra hens about the place? A News want ad will sell them to advantage.

Last Spoonful Same as the First

Calumet is made under such exacting conditions — packed in such a scientific manner, that its leavening strength and purity never vary. It retains its original strength for months after leaving the factories.

When you tip the can to get the last spoonful, you know your baking will turn out all right—the last spoonful is the same as the first. This uniform quality of

CALUMET BAKING POWDER

is cause for its big demand. Housewives know they can depend upon the results obtained—that climatic conditions or temperature cannot deteriorate its positive leavening power.

When you buy baking powder remember these facts—that a uniform leavener means bakings that do not vary in quality—that Calumet is uniform.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a lb. when you want it

In The Oil Fields

Nance Well.

The gasoline engine at the Nance well in section 4-4-5, near the town of Bebee, has not been installed yet, though work has been in progress for several days. It is believed now the engine will be ready for use not later than Monday. When this engine has been in operation for several days, it will be possible to determine what the well will do. Those who have been watching it are confident it will settle down to a steady production of not less than a hundred barrels a day, and may exceed this.

Carter Offset.

The offset well of the Carter-Lowry Syndicate is in the same section but a quarter of a mile west has a fishing job. Ed Gillett, who is drilling it, says satisfactory progress is being made. The two joints of casing which are off in the hole will be removed shortly. The well is making a very nice showing and promises to be good pay.

IN SOCIETY

To Give Recital

Miss Akte Draper, instructor in voice announces that a recital will be given in Center this evening by three of her pupils. They are Lester Medlock, Oscar Parker and Russell Boud. The program will be a lengthy one, including numbers by Mr. Parker, bass, Mr. Medlock, tenor, and Mr. Boud, tenor-baritone. Pale moon by Logan, In the Sleepy Country by Brownie, My Pretty Marguerite by West, I Bring You Heart Ease by Branscomb, Bendemeer's Stream by Gatty and When May is Tuning To June by Penn will be numbers given by Mr. Medlock, who is teaching at Center this year.

Minor Chord by Mager, The Lost Chord by Sullivan, Nancy's Answer by Brins, Pegen by Penn, of Exever and a Day by Mack, and When The Roses Bloom by Reichardt will be numbers to be rendered by Mr. Boud. Mr. Parker will give, When the Bell in the Lighthouse Rings by Solman, A man's Song by Harris, The Song the Anvil Rings by Petrie, and A Son of the Desert Am I. All visitors from Ada will be welcome. These singers have appeared numerous times before audiences in Ada and elsewhere and expect a large crowd of Ada friends to be at Center this evening.

Entertainment Postponed.

The entertainment which was to have been given tonight at Hays ward school under the auspices of the Teachers-Forum club has been postponed, according to an announcement this afternoon by officers of the club. If weather gets better it will be given next week.

CHURCH REGRETS DEATH OF EARLY PASTOR'S MOTHER

Resolutions of sympathy and regret for the death of Mrs. Mary Brooks, mother of Rev. Charles L. Brooks, former pastor of the Methodist church here, and Mrs. Ed Granger of Ada, were submitted today by members of the church here.

Rev. Brooks is now pastor of the church at McAlester. Following are the resolutions:

"We a committee appointed by the First Methodist Sunday school of Ada, Oklahoma, to draft resolutions concerning the death of Sister Mary S. Brooks, submit the following:

"Whereas Almighty God our Heavenly Father, has in his wisdom removed from our midst the Immortal Spirit of our dear sister, Mrs. Mary S. Brooks, therefore

"Be it Resolved, that our hearts have been filled with profound sorrow by the death of Sister Brooks, that we extend to the bereaved husband our deepest sympathy in the loss of his dear wife who for more than fifty years has walked hand in hand with him, sharing with him the joys and sorrows of life.

"That we extend to Rev. Charles L. Brooks, our former pastor, and to Mrs. Ed Granger, our co-worker in the Sunday school, and to all the other sons and daughters and to the grand-children, and to other sorrowing relatives our sincerest expressions of love and sympathy in this their great bereavement.

"That a copy of these resolutions be spread on the records of the Sunday school and that a copy be given to the bereaved family.

SALLIE FULTON, Chairman,

MRS. R. E. HAYNES,

MRS. R. C. TAYLOR,

MRS. W. A. HILL.

County Bar To Honor Pioneer Lawyer Who Practiced in This City

At a meeting of the Pontotoc County Bar association called for Saturday at 11 o'clock at the court house, resolutions of regret and respect for Judge L. C. Andrews, whose death at Pauls Valley was reported here today, will be read. In an open session of district court this morning, District Judge J. W. Bolen, a friend and former bar associate with Judge Andrews, announced the appointment of a resolution committee composed of I. M. King, J. F. McKeel, and U. G. Winn.

All members of the resolution committee practiced law here with Judge Andrews in the early days and in their long years of association with him, formed a strong personal friendship for the jurist. While Judge Andrews lived in Ada he was prominently identified with the county bar and is widely known among early citizens of the county. One local attorney read law under Judge Andrews it is reported.

Three Towns To Meet On Extending Branch Of Railway To City

John E. Palmer, representative of a California investor, has been in the city this week conferring with the board of directors of the Chamber of Commerce about a project for the extension of the Rock Island railroad from Shawnee to Asher, on through Bebee to Ada. His proposition was not entirely agreeable to the directors, however, and no definite steps were taken.

A joint-meeting of Ada, Asher, and Shawnee business men will be called at Shawnee in the near future where the plan will be further discussed. The local men who conferred with Mr. Palmer said today they would do everything in their power to secure the extension of the road.

SNOW BLANKETS EARTH AT OMAHA FRIDAY

(By the Associated Press)
OMAHA, Neb., Nov. 18.—A light snow which started falling in Omaha this morning promised to blanket the ground within a few hours.

For Thanksgiving

The time of disproportionate values is past. The November values, available throughout the store are convincing examples of the "Old Worth While Saving Standards."

A Cheery Message of Lower Prices On Smart Winter Dresses

Beautiful--Stylish
Dresses
of Wool and Silk

—Consisting of Poiret Twill, Tricotine and Satin with very jaunty and fashionable trimmings here and there that adds to their graceful lines and air of simplicity. Many choose jet beadings, dense embroidery or lattice effects of self material. No favorite shade is lacking; the smartest being black, midnight, navy and many shades of brown; all especially priced.

\$16 \$22 \$27 \$33

Gloves

—Exquisite —Correct
For the Winter Costume

The new modes bring gloves of the various lengths in the soft sand shades which harmonize with practically every costume. They come in kid, suede leather and chamoussuede in two-button and three-quarter lengths. Some are very elaborately and heavily embroidered with embroidery. They are very reasonably priced

\$1.95 to \$4.95

November Brings Forth a Removal Sale on all Fall Millinery

We will out-beat any offers of the season by pricing these smart versions that formerly sold for \$8, \$10, and \$12, which include—Small Hats, rolled brims, off-the-face shapes, turbans and Tricornes, at \$3.50 and \$4.95

Large shaped Fiske hats that formerly sold up to \$20, in Panne and Lyon's velvet, metallic cloth, ostrich feathers in shades of brown, black and blue, at only \$9.95

Autumn's Distinctive Coats and Wraps

Wraps know the flattery of furs contrasted with fabrics of silk-like softness. The richest of fabrics from the standpoint of texture and quality, include a few of the leading ones as Mussynne, Pollyanna, Gora, Normandie and Velvura. An almost Japanese width of sleeve marks them unmistakably of Autumn, 1921. Prices are especially lowered.

ALFALEA COUNTY MAN
MADE \$1.143 FROM EGGS

STILLWATER, Nov. 18.—If Okla-
homa farmers are doubtful about
the value of poultry as an agri-
cultural side-line, let them read the
record of G. A. Fell, a breeder of
white leghorn chickens, living near
Cherokee, Alfalfa county. The re-
cord is contained in a report to the
extension department of the Okla-
homa A. and M. college by George
N. Newton, farm demonstration
agent.

Between September 20, 1920 and
September 19, 1921, the report says,
Fell shipped 2,010 dozen eggs, for
which he received \$732.50; set and
sold for settings 7,000 eggs, of a
total value of \$280; sold on local
markets 5,052 eggs, receiving \$75.78
for them, and furnished neighbors
and used 2,772 eggs, worth \$55.44.

The total value of eggs alone,
during the year, was \$1,143.70. Fell
had during that time 30 hens. All
outside shipments were made direct
to New York City. Of the 2,010
dozen eggs sent to that market not
one was broken or soiled.

MUSKOGEE GIRLS HOLD
FASHION SHOW ALL OWN

MUSKOGEE, Nov. 12.—The girls
of Central high school here held a
fashion show all their own recently,
all the dresses exhibited being
made by themselves. The cost of
the making, allowing for labor and
material, was placed at between \$8
and \$30, the domestic science in-
structors said, while the cost of the
same dress purchased outside would
have been from \$15 to \$80.

Twelve thousand legal executions
are the yearly average in China,
which holds the world's record for
executions.

NEW FERRY COMPLETED
OVER CANADIAN RIVER

FRANCIS, Nov. 18.—(Special).—
The Francis Ferry Company has
completed the ferry across the South
Canadian river between Francis and
Saskawa, and it is now in use. This
is the second ferry constructed, and
every measure possible for its pro-
tection has been made.

The citizens of Francis feel that
in getting this ferry into use again
they are benefitting many tourists
as well as business men and farm-
ers in this part of the state. The
Francis crossing is the most direct
route between Ada and other cities
to the south and Saskawa, Hold-
enville and the oil cities to the
north.

VANOSS

We are very grateful for the rain
which came, though tardily, Tues-
day night.

The high school is going to give
a Sox Social Saturday night. Every-
body is invited to come. There
will be every thing to entertain
you, including a minstrel, and hot
chocolate will be served. There will
also be fortune telling by a well
skilled gypsy. Candy, peanuts, ap-
ples, etc., will be sold in booths
in the auditorium.

The Baptist revival closed Sunday
night. There were five conversions
during the meeting.

Mrs. and Mr. Henry Eaves of
Stratford are visiting their rela-
tives here, this week.

Miss Bena Shaw visited friends
and relatives at Stratford last
week-end.

Clyde Griffith came home last
Friday for a short visit with his
parents. He left for Francis Mon-
day.

Richmond Keeling, of Texas, vi-
sited Miss Iva Williams last week.

The Boy Scouts from Ada visited
our Boy Scouts Sunday. They
brought with them the High school
band, which is constituted largely
of Boy Scouts. We enjoyed the en-
tertainment and hope they will vi-
sit us often.

Doc Fox will fill his regular ap-
pointment here Sunday and Sun-
day night. Everybody come out
to hear him.

The high school inspector was
with us, the first of the week. He
seemed well pleased with our work.
—Mocking Bird.

HOMER

We were blessed Tuesday night
with a nice rain which was cer-
tainly appreciated by everyone. As
the school rendered a nice Ar-
things were sure getting dry.

A goodly number attended Sun-
day school Sunday but we are ex-
pecting more next Sunday. We have
a contest on to see how many we
can get to come to Sunday school.

The Reds had more present last
Sunday. But come on Blues, you
have a chance to beat next Sun-
day.

Singing was well attended Sun-
day night. There was also a good
interest shown in the Scripture les-
son. We are certainly proud to see
this, and trust there will be more
next Sunday night.

Mrs. Mattie Brumley of Ada has
been visiting relatives here. But
returned home Tuesday.

Mr. and Mrs. Lambert and Mr.
and Mrs. Barnett took dinner Sun-
day with Mr. and Mrs. Bud Black-
burn.

Mr. and Mrs. Jim Carney have
moved back to Homer after living at
Happy Land a year. We are glad
to welcome them back home.

The men of the community work-
ed on the telephone line Monday
and Tuesday.

Lee Ford came home last week
after being away for some time.

Hot Soup Fed Kiddies.

GOTERO, Nov. 18.—Through co-
operation of Edith V. Huffer, home
demonstration agent for Kiowa
county, the girls of the Gotoh
school have canned enough soup
mixture to supply hot lunches to
children all winter. They expect
to sell enough to make the de-
partment self sustaining.

A circus acrobat was about to be
declared legally dead in Elizabeth,
N. J., when he arrived at his sis-
ter's home there. He said the rea-
son he had not written in eight
years was that he had nothing
special to tell her.

Ada Lodge No. 119, Monday night
on or before the full moon in each
month—John Thrasher, W. M.; F.
C. Sims, secretary.

R. A. M.—Ada Chapter No. 26 Roy
al Arch Masons, meets the second
Tuesday night in each month.—A.
Stauffer, H. P.; F. C. Sims, secre-
tary.

K. T. M.—Ada Commandry No. 16
Knights Templar Masons meets the
third Friday night of each month.
—M. F. Manville, E. C.; F. C.
Sims, secretary.

B. P. O. E.—Ada Lodge No. 1275
meets second and fourth Monday
nights in each month.—H. Claud-
Pitt, secretary.

I. O. O. F.—Ada Lodge No. 146
regular meeting every Thursday.—
R. W. White, N. G.; H. C. Evans
Sec'y.

A. O. U. W.—Lodge No. 40 meets
first and third Tuesday nights of
each month.—J. B. Emory, Secre-
tary.

TAKE SALTS TO
FLUSH KIDNEYS

Eat Less Meat if You Feel Back-
achy or have Bladder
Trouble.

Meat forms uric acid which ex-
cites and overworks the kidneys in
their efforts to filter it from the
system. Regular eaters of meat must
flush the kidneys occasionally. You
must relieve them like you relieve
your bowels; removing all the acids,
waste and poison, else you feel a
dull misery in the kidney region
sharp pains in the back or sick
headache, dizziness, your stomach
sour, tongue is coated and when
weather is bad you have rheumatic
twinges. The urine is cloudy, full
of sediment; the channels often get
irritated, obliging you to get up two
or three times during the night.

To neutralize these irritating acids
and flush off the body's urinous
waste get about four ounces of Jad
Salts from any pharmacy; take a
tablespoonful in a glass of water
before breakfast for a few days and
your kidneys will then act fine and
bladder disorders disappear. This
famous salt is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to clean and stimulate
sluggish kidneys and stop bladder
irritation. Jad Salts is inexpensive,
harmless and makes a delightful
effervescent lithia water drink which
millions of men and women take now
and then, thus avoiding serious kid-
ney and bladder diseases.

Check That Cold

JURY NOW COMPLETE FOR ARBUCKLE TRIAL

(By the Associated Press)
SAN FRANCISCO, Nov. 18.—Completion of the jury, selection of one or more alternate jurors and the beginning of the opening arguments forecasted today progress in the Roscoe C. (Fatty) Arbuckle case.

JAPAN PREPARES VIEWS ON CHIN'S IDEAS

(Continued from Page One)
It is taken for granted that maintenance of the "open door" will remain a basic consideration in any American plan of procedure.

Openly emphasizing their readiness to work for China, the British spokesmen insisted that Great Britain had actually gone far in its relinquishment of extra territory of foreign and British national. They recalled that this point was in the treaty made many years ago by Great Britain with China.

Considering the statement of the British attitude towards China, made by a high authority, they said that generally speaking Great Britain had come to the conference to take part with the other nations in the preparations of steps to make China a solvent country and a real factor in world trade. In that respect, it was declared, Great Britain's interests were identical with those of other nations, centered with those of the United States.

LOW TEMPERATURE WITH SNOW VISITS AMARILLO

AMARILLO, Tex., Nov. 18.—Flurries of snow, the first of the season, began drifting here this morning. The temperature dropped to 30 degrees, the lowest of the winter.

BOLEN TAKES BIG DOW ON PAVEMENT INTO ADVISEMENT

District Judge J. W. Bolen took under advisement last night a petition for injunction, filed by property owners on North Mississippi avenue against a paving project, a contract for which was let several weeks ago.

No date has been set for rendering a decision but some action is expected within the next few days. Upon Judge Bolen's opinion the continuance or cancellation of a big street venture now hangs. Approximately \$50,000 in labor and materials is involved in the project which was to cover about six blocks in paving district number 9. In spite of inclement weather, a big delegation of property owners along the contested stretch gathered to hear progress of the action to enjoin the paving. Some of them were there to give testimony in the case.

Somewhat unique is the situation that has arisen on North Mississippi while actual paving of the street is being held up by legal strings. While some property owners maintain that the paving will result in improving the value of their homes, others declare they are positively unable to stand the cost, alleging that it will mean a virtual confiscation of their lots. Litigation has arisen over which of these factions represents the biggest part of property along the six blocks.

Let a News Want Ad get it.

THE SPURTING HOSE.

In a free city hospital for children were many boys and girls. The hospital overlooked the city streets. It was situated in a very crowded part of the city and the streets below the hospital were always crowded with men and women and children and cats!

Sometimes a merry-go-round would stand on the street before the hospital and the children would listen to the gay tunes it played. They would watch others riding the spirited horses—and still others with not such adventurous spirits would be sitting in quiet chairs as they revolved around to the music.

But oh, in the summer time it was hot in the hospital. Lying in beds and sitting in hospital wheeling chairs seemed to them far hotter than playing would be—for it was hard to forget the heat when sitting or lying still.

And the warmth seemed to rise right up from the pavements and to tell the children that it had come to pay them a visit.

Now and again some one brought ice cream to the hospital, and sometimes children who lived just outside the city, came in with wild flowers which made the hospital wards, seem far more summery, and even less hot.

But all day long the hot sun poured down, and no trees were about to help with their shade and with their moisture.

At night it was very hard to sleep. It almost seemed to the children as though the heat had no intention of letting anyone alone even then.

And so it went on when one evening the matron came in for her usual good-night rounds. It was earlier than usual. They hoped that she would not be suggesting going to bed any earlier. But that was not like her.

"You're all pretty hot, I know," she said, "and I've brought every one of you a bathing suit. Even though we haven't much money in this hospital, we at least can afford that much, I decided."

She paused for a moment while every child tried to smile. It was all right, of course, to "make-believe" about many things, but not about bathing suits when there was no water except in the bathtubs!

But she was talking some more. "And now I want you all to put on your bathing suits, and in five minutes I will meet you all by the elevator."

What could it mean! The nurses helped the children to put on their

"Such a Scampering."

new bathing suits, and every child who was not too sick, was given one.

Then they went out to the elevator, and there was the matron. One group at a time was taken down to the courtyard below.

The children were more mystified than ever. What could it all mean? In a moment or two the nice, good-natured janitor of the hospital appeared and said to the matron, "Is everyone here?"

"Yes," the matron answered.

"Well," said the janitor, "do they like the idea of being cooled off?"

"I haven't told them what is to happen," the matron said. "I've left it to you to tell them."

"Well, well, well," and the janitor laughed. "They're all dressed up in bathing suits and don't know why they are!"

"I'm going to play the hose," he continued, "and you're all to jump under it, or in it, or whatever way you want to jump, or walk or sit or stand, and any who're afraid of the hose can stand by and look on."

There was no one who stood by and looked on. Every child had a shower bath, and yet another and yet another.

Some tried to catch the water and hold it in their hands just as the hose itself could be held.

Oh, such a scampering and a frolic as there was. Oh, such laughter and such merry making! And that night, the sleep was a cooling, restful sleep, for the heat had been beaten in its battle with the hose!

And every night during the summer the children put on their bathing suits and went down to the courtyard where were the janitor and the hose, gay spraying water and coolness.

"For after all," one of the children said, "there's nothing much nicer than a dear old spurting hose!"

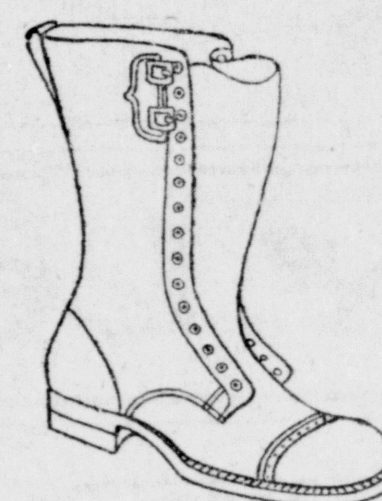

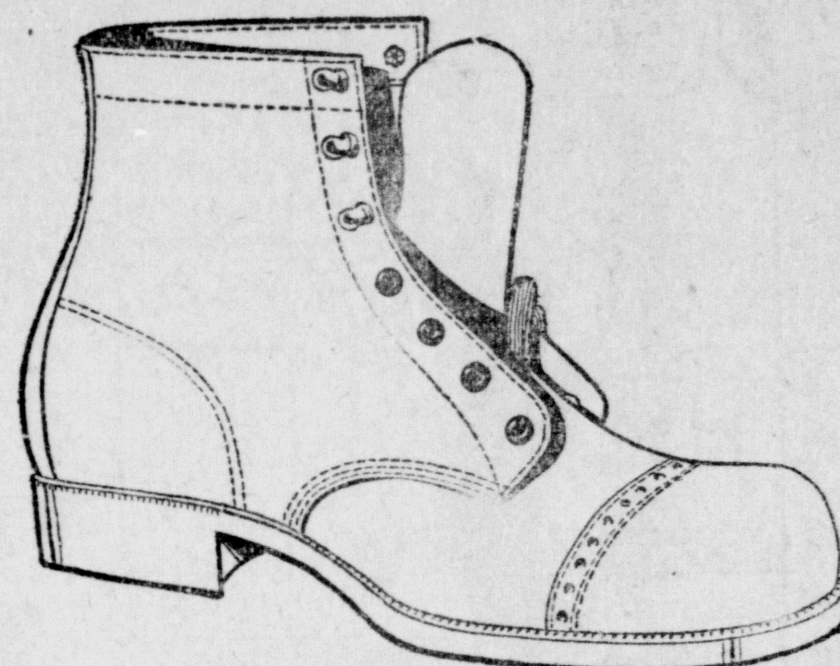

And every one of them agreed to that!

Three Stars to be Exalted To Top Of Literary Sky In Places Left By Dead Heroes

(By the Associated Press)

NEW YORK, Nov. 17.—The flower of America's men of art and letters gathered here tonight for a two day celebration of the American Academy of Arts and Letters, during which three more illustrious figures will be elevated to the ranks of the "Immortal Fifty."

The three to be selected will take the seats left vacant by John Burroughs, Abbott Henderson Thayer and Barrett Wendell, who have died since the last annual meeting of the Academy.

The selections will be made tomorrow by the remaining 47 members of the Academy, from a list of nominees picked because of their eminence in poetry and the drama, fiction and history, painting and sculpture, architecture and music, from the 250 members of the National Institute of Arts and Letters.

On Saturday, Marshal Foch will be relegated to the background for the only time during his stay in America the role of soldier, and will appear in the robes of the French Academician to lay the cornerstone of the American Academy's new home. Distinguished authors, artists and statesmen of two hemispheres are expected to attend this ceremony.

Beginning Described.

Professor Brander Matthews of Columbia University, Chancellor of the American Academy, has told of the Academy's beginnings with Howells, Twain, Stedman and others as a nucleus.

"About 20 years ago," said Professor Matthews, "the Social Science Association increased its numbers and then designated one hundred of its members—poets and prose writers, painters and sculptors, architects and composers—to found a National Institute of Arts and Letters."

Slowly this Institute enlarged its membership to 250; and then it chose some of its members, Howells, Stedman, Mark Twain and John Hay, LaFarge and St. Gaudens and Edward Macdowell, and laid upon them the duty of establishing an American Academy of Arts and Letters to consist of 50 of the leaders in poetry and the drama, fiction and history, painting and sculpture, architecture and music.

"When this Academy was thus organized it elected Howells as its president and then William Milligan Sloane as its Chancellor. After the death of Howells last year he was succeeded in the presidency by Mr. Sloane. No one is eligible to the Academy who is not a member of the Institute. No member of either the Institute or the Academy had voted for himself; they have all been elected by their fellow crafts men in the several arts."

"The purpose of the Academy is to bring together the leaders in the allied arts, to enable them to know one another more intimately, and to encourage them to take such action for the advancement of their several arts as may seem to them wise. To this end both the Institute and the Academy have received national charters from the Congress of the United States. Election to the Institute is an encouragement to the younger artists and men of letters; and election to the Academy is an ample recognition for the more mature men whose early promise has been followed by performance. The

Institute awards its gold medal every year to a leader in one of the arts; and the Academy has also its medal, which has as yet been awarded only once."

OKLAHOMA MAN IS NAMED ON CONSUL STAFF FOR TIME

(By the Associated Press)

WASHINGTON, Nov. 18.—George A. Bucklin, of Norman, Okla., was named consul-in-charge, temporarily, at Coblenz, Germany, by President Harding in announcement yesterday of complete diplomatic and consular staffs to represent the United States in that country.

Ellis Loring Dresel, American commissioner at Berlin, was nominated to be chare d'affaires ad interim, pending arrival of his letters of credence.

Recognition will be requested by M. Dresel for the following consuls:

William Coffin, Middlesboro, Ky., consul-general at Berlin; William Dawson, St. Paul, Minn., at Munich, Hernando de Sota, at Leipzig; John E. Kehl, Cincinnati, Ohio, at Breslau; Lewis G. Dreyfus, Santa Barbara, Cal., at Dresden; Emil Sauer, Doss, Texas, at Cologne; Alfred W. Donagan, Mobile, Ala., at Konigsburg; Francis R. Stewart, Evansville, Ind., at Bremen; Eugene C. A. Reed, Daytona, Fla., at Stettin; J. K. Huddle, Fort Recovery, Ohio, consul in charge temporarily at Hamburg; John Q. Wood, Bucksports, Maine, consul-in-charge temporarily at Frankfurt, and Mr. Bucklin.

ADA BANKS APPLY FOR WAR FINANCE CORPORATION FUND

Ada banks, and probably those of other towns in Pontotoc county, are making application to the war finance corporation for a share of the money set aside for loans to farmers. The amount of the funds allotted to a bank depends on the amount of farm paper it carries. The money obtained by the banks from this source will be used in carrying the farmers through the next crop. As there are some necessary formalities to be gone through with it will probably be a short time yet before the money will be forthcoming to the banks applying for it.

FOUR MEN FOUND NOT GUILTY OF TIRE THEFT

After a jury trial yesterday before Justice of the Peace H. J. Brown, four men, E. J. Reed, D. R. Frederickson, E. A. Frederickson, and J. E. B. Whitehead were found not guilty on a charge of petty larceny. They were charged with the theft of an automobile casing from a Twelfth street garage several weeks ago when a garage attendant turned his back. A mistake in the casing was made, the defendants declared.

E. J. Reed plead guilty in a pistol case and was fined \$25 and cost by Justice Brown.
